REJECTION OF CLAIMS OVER PRIOR ART

Claims 1, 10, 13, 14, 17 and 19-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Velarde (4,304,116). See Figures 1, 7 and 8 where the device comprises a first body portion 34, a second body portion 96 and a plurality of movable blades 37, 38 and 40 with blade 38 and 40 pivotally mounted to the first body portion 34 and slidably engaged with the second body portion 96. A recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. As to the method claims, these claims are met since Velarde's crimping operation is used on aerosol containers and aerosol containers are used in the medical field. Thus, Velarde's process involves a method for reducing the diameter of "medical devices".

Claims 11, 12, 15, 16 and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Velarde (4,304,116). While Velarde does not indicate the thickness dimension of the blades, it is the examiner's position that such dimension selection would have been made based on the workpiece size being crimped. Clearly, workpieces of a thin nature would require blades of a thin construction and workpiece of a thicker nature would require thicker blades. Accordingly, the skilled artisan having the benefit of Velarde's device would have recognized the sizing of the blades to the appropriate size of the workpiece.

INDICATION OF ALLOWABLE SUBJECT MATTER

Claims 6, 24-27 and 30-35 are allowed.

Claims 2-5, 7-9, 18, 23 and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

RESPONSE TO APPLICANT'S AMENDMENT

Applicant's response has been carefully considered, however, applicant's comments are moot in light of the new grounds of rejection, such rejection having been necessitated by applicant's response.

FINAL OFFICE ACTION

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be
